

Focus
CMA Education Department
Outcome Worksheet

Description of Program/Experience:

Focus encourages conversation between two unique groups of students sharing experiences through photography. Students from two different high schools work together to photograph and edit images about their lives. Through photography, writing, and conversation Focus provides an open forum for student discussion.

Program goals:

1. To foster student appreciation of photography as an art form
2. To encourage students to interpret creatively and to make decisions about what photographs to take and why
3. To cultivate student respect and understanding for their peers

Desired outcomes:

1. Students will understand how to “read” a photograph
2. Students will participate in the process of creating and editing photographs that reflect their lives
3. Students will increase awareness and respect for cultures other than their own
